

# LIVE UNITED™

**Together, we are changing lives**

We all win when a child is ready to learn on the first day of school; stays in the classroom until graduation day; and plays in a neighbourhood where the shouts are of joy, not despair.

Because underneath everything we do, everything we are, we are one community - connected, interdependent and united.

That's why with your support we fund programs that enable vulnerable families to be successful, help high school students stay in school, and empower the residents of our inner city neighbourhoods to take back their communities block by block.
